

# SAFETY DATA SHEET

## MICROSURE ALL PURPOSE CLEANER AND DISINFECTANT: READY-TO-USE

### SECTION 1: IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product Name:	MICROSURE ALL PURPOSE DISINFECTANT - READY TO USE
Synonyms:	Multi-Surface Cleaner RTU
Recommended Uses and restrictions on use:	For the cleaning of interior and exterior surfaces
Company Identification:	Strategia PM 1000 Jorie Blvd, Suite 370 Oak Brook, IL 60523
Emergency Telephone Number:	+1-866-377-8728

### SECTION 2: HAZARDS IDENTIFICATION

<b>Hazard Classification</b>	Skin Irritation 3, Eye Irritation 2B
<b>Signal Word</b>	WARNING
<b>Hazard statement(s)</b>	May irritate skin and eyes
<b>Symbol(s)</b>	
<b>Precautionary Statements</b>	Do not get in eyes or on clothing. Avoid contact with skin. Wear protective eyewear (goggles)
<b>Eyes</b>	Direct contact may cause mild but temporary eye irritation
<b>Skin</b>	May cause slight irritation
<b>Ingestion</b>	May be harmful if swallowed in large quantities
<b>Inhalation</b>	Harmful if inhaled for extended periods
<b>Carcinogen</b>	No

**Medical conditions generally aggravated by exposure:** Not known

The above listed potential effects of overexposure are based on actual data, results of studies performed upon similar compositions, component data, and/or expert review of the product.

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS Number	% Weight
Quaternary Ammonia	68424-85-1	<0.50%
Inert Ingredients Below Reporting Levels	various	<0.50%
Water	7732-18-5	balance

The above information is not intended for us in preparing product specifications.

### SECTION 4: FIRST AID MEASURES

Primary routes of exposure:

<b>Eyes</b>	Hold eye open and flush with a steady, gentle stream of water for 15-20 minutes. If present, remove contact lenses after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice if discomfort continues.
<b>Skin</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice if you feel ill or if irritation persists.
<b>Ingestion</b>	Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
<b>Inhalation</b>	Move person to fresh air. If not breathing, give artificial respiration. Seek medical attention.

**Recommended first aid facilities:** Ready access to running water.

### SECTION 5: FIRE FIGHTING MEASURES

<b>Fire and explosion hazards</b>	None
<b>Flashpoint</b>	N/A
<b>Hazards decomposition products</b>	N/A
<b>Suitable extinguishing media</b>	N/A
<b>Special firefighting procedures</b>	No special precautions required
<b>HAZCHEM code</b>	N/A

### SECTION 6: ACCIDENTAL RELEASE MEASURES

<b>Personal Precautions</b>	Spills or leaks: Wear proper eye protection. This material will be slippery if spilled.
-----------------------------	---

<b>Methods for Cleaning Up</b>	Soak up with an inert material such as sawdust or absorbent. For small spills, hose away with water. For large spills, transfer to suitable container for disposal.
--------------------------------	---

## SECTION 7: HANDLING & STORAGE

<b>Precautions for Safe Handling</b>	No approved handlers required; Avoid contact with eyes. Wear proper eye protection
<b>Storage</b>	Keep in a closed container when not in use. Store away from heat and direct sunlight. Recommended temperature is between 10°C and 40°C. Avoid freezing contents.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>Workplace Exposure Standards:</b>	A workplace exposure standard (WES) has not been established for this substance.
<b>Engineering Controls:</b>	Ready access to running water and or eyewash stations - general ventilation
<b>Personal Protective Equipment:</b>	Eye protection and gloves are recommended for bulk transfer and handling

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance / Color</b>	Clear
<b>Odor</b>	Slight ammonia like
<b>Odor Threshold</b>	Test not applicable for this product type
<b>pH</b>	5-9
<b>Physical State</b>	Liquid
<b>Melting Point / Freezing Point</b>	N/A / <0°C
<b>Boiling Point &amp; Boiling Range</b>	100°C
<b>Flash Point</b>	>93°C Approximate
<b>Evaporation Rate</b>	Higher initially and declining as lighter components
<b>Flammability (solid, gas)</b>	Does not sustain combustion
<b>Upper/lower flammability or explosive limits</b>	No data available
<b>Vapor Pressure</b>	No data available
<b>Vapor Density</b>	No data available
<b>Relative Density</b>	1.00 g/cm <sup>3</sup> at 25 C

<b>Solubility in water</b>	Complete
<b>Partition coefficient: n-octanol/water</b>	No data available
<b>Auto-ignition temperature</b>	No data available
<b>Decomposition temperature</b>	No data available
<b>Viscosity (at 68°F/20°C)</b>	<95 mPas
<b>Specific gravity (at 68°F/20°C)</b>	1.0 g/ml

### SECTION 10: STABILITY AND REACTIVITY

<b>Reactivity</b>	Material is not reactive
<b>Chemical Stability</b>	Under normal conditions this material is stable
<b>Hazardous Polymerization</b>	Hazardous polymerization will not occur
<b>Conditions to avoid</b>	Temperatures > 50°C; Freezing
<b>Incompatible materials to avoid</b>	Acids, alkalis, strong oxidizing agents, anionic surfactants
<b>Hazardous decomposition products</b>	None

### SECTION 11: TOXICOLOGICAL INFORMATION

<b>Acute oral toxicity</b>	LD <sub>50</sub> Rat (oral) > 5000 mg/kg
<b>Acute dermal toxicity</b>	LD <sub>50</sub> Rabbit (dermal) > 5000 mg/kg
<b>Inhalation toxicity</b>	N/A
<b>Acute eye irritation test</b>	Mild reversible eye irritant
<b>Acute dermal sensitivity</b>	Not a dermal sensitizer
<b>Likely routes of exposure</b>	Inhalation, skin contact and eye contact. Product is harmful if inhaled in large quantities
<b>Symptoms</b>	May cause mild, temporary eye and skin redness and/or irritation
<b>Delayed and immediate effects from short &amp; long term exposure</b>	May cause mild, temporary eye and skin redness and/or irritation
<b>Numerical measures of toxicity</b>	EPA Category IV
<b>CMR toxicants</b>	Negative for CMR

## SECTION 12: ECOLOGICAL INFORMATION

<b>Acute toxicity</b>	Slightly harmful to the aquatic environment in large quantities
<b>Soil toxicity</b>	No data available
<b>Terrestrial vertebrate toxicity</b>	Non-toxic
<b>Terrestrial Invertebrate toxicity</b>	No data available

### Ecotoxicological effects:

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with requirements of the local government authority and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority.

## SECTION 13: DISPOSAL CONSIDERATIONS

<b>Restrictions</b>	There are no product specific restrictions
<b>Waste Disposal Method</b>	Waste resulting from the use of this product may be disposed of on site. If this waste cannot be disposed of by use according to the label instructions, contact your local Environmental Control Agency for guidance.
<b>Container (plastic) disposal</b>	Rinse (or equivalent), then offer for recycling or reconditioning, puncture and dispose of in a sanitary landfill, incineration, or by burning (if allowed by the state and local authorities). If burned, stay out of smoke.
<b>Section 13 notes</b>	Inactivation of solutions containing Surface Cleaner may be accomplished by addition of an anionic surfactant or detergent in quantity equivalent to that of Surface Cleaner solution.

## SECTION 14: TRANSPORT INFORMATION

IATA Proper Shipping Name	Non-flammable liquid
IATA UN Number	Not specified
Hazard Class	Not regulated
NFPA/HMIS classification	Flammability 0, Reactivity 0, Health 1

## SECTION 15: REGULATORY INFORMATION

New Zealand	This product is an approved substance under the Hazardous Substances and New Organisms ACT (HSNO). The active components are listed on the New Zealand Inventory of Chemicals (NZIoC).
Group Standard	Cleaning Products (Subsidiary Hazard) Group Standard 2006
US Federal Regulations	TCSA (Toxic Substances Control Act) Status: All components of this product are listed or excluded from the TSCA inventory of chemical substances.

## SECTION 16: OTHER INFORMATION

Disclaimer: This information is offered in good faith as typical values and not as a product specification. No warranty, expressed or implied is hereby made. The recommended industrial hygiene and safe handling procedures are believed to be generally applicable. However, each user should review these recommendations in the specific context on the intended use and determine whether they are appropriate.

# SAFETY DATA SHEET

## 8HD (8-HOUR DEFENSE): READY-TO-USE

### SECTION 1: IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product Name:	8HD (8-HOUR DEFENSE) - READY-TO-USE
Synonyms:	MicroSure WOUND CARE - RTU
Recommended Uses and restrictions on use:	Hand Sanitizer, Wound Sanitizer, First Aid
Company Identification:	Strategia PM 1000 Jorie Blvd, Suite 370 Oak Brook, IL 60523
Emergency Telephone Number:	+1-866-377-8726

### SECTION 2: HAZARDS IDENTIFICATION

<b>Hazard Classification</b>	Not a hazardous substance or mixture
<b>Signal Word</b>	No signal word
<b>Hazard statement(s)</b>	No known significant effects or critical hazards
<b>Symbol(s)</b>	NONE
<b>Precautionary Statements</b>	Do not use in eyes. In case of eye contact, flush thoroughly with water and seek medical attention. Stop use and ask doctor if irritation and redness develop and persists for more than 72 hours. Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

**Medical conditions generally aggravated by exposure:** Not known

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS Number	% Weight
Benzalkonium chloride	8001-54-5	0.13%
Inert Ingredients Below Reporting Levels	various	<0.50%
Water	7732-18-5	balance

The above information is not intended for us in preparing product specifications.

## SECTION 4: FIRST AID MEASURES

Primary routes of exposure:

<b>Eyes</b>	Hold eye open and flush with a steady, gentle stream of water for 15-20 minutes. If present remove contact lenses after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice if discomfort continues.
<b>Skin</b>	In the case of irritation, rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice if you feel ill or if irritation persists.
<b>Ingestion</b>	Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poisons control center or doctor. Do not give anything by mouth to an unconscious person.
<b>Inhalation</b>	Product is not likely to be hazardous by inhalation. If respiratory irritation or distress occurs, move person to fresh air. If not breathing, give artificial respiration. Seek medical attention.

**Recommended first aid facilities:** Ready access to running water.

## SECTION 5: FIRE FIGHTING MEASURES

<b>Fire and explosion hazards</b>	No applicable hazards are known to be associated with this product.
<b>Flashpoint</b>	Does not flash
<b>Hazards decomposition products</b>	N/A
<b>Suitable extinguishing media</b>	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment
<b>Special firefighting procedures</b>	No special precautions required
<b>HAZCHEM code</b>	N/A

## SECTION 6: ACCIDENTAL RELEASE MEASURES

<b>Personal Precautions</b>	Wear appropriate protective equipment (see section 8)
<b>Methods for Cleaning Up</b>	Soak up with an inert material such as sawdust or absorbent. For small spills, hose away with water. For large spills, transfer to suitable container for disposal.

## SECTION 7: HANDLING & STORAGE

<b>Precautions for Safe Handling</b>	No approved handlers required; Avoid contact with eyes. Wear proper eye protection
<b>Storage</b>	Keep in a closed container when not in use. Store away from heat and direct sunlight. Recommended temperature is between 10°C and 40°C. Avoid freezing contents.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>Workplace Exposure Standards:</b>	A workplace exposure standard (WES) has not been established for this substance.
<b>Engineering Controls:</b>	Ready access to running water and or eyewash stations - general ventilation
<b>Personal Protective Equipment:</b>	<b>Respiratory protection:</b> Not required <b>Eye/Face:</b> Safety glasses or goggles if splash hazards exist <b>Skin:</b> Not required

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance / Color</b>	Clear
<b>Odor</b>	Odorless
<b>Odor Threshold</b>	Test not applicable for this product type
<b>pH</b>	5-9
<b>Physical State</b>	Liquid
<b>Melting Point / Freezing Point</b>	N/A / <0°C
<b>Boiling Point &amp; Boiling Range</b>	100°C
<b>Flash Point</b>	Does not flash
<b>Evaporation Rate</b>	Higher initially and declining as lighter components
<b>Flammability (solid, gas)</b>	Does not sustain combustion
<b>Upper/lower flammability or explosive limits</b>	No data available
<b>Vapor Pressure</b>	Similar to water
<b>Vapor Density</b>	No data available
<b>Relative Density</b>	No data available
<b>Solubility in water</b>	Complete
<b>Partition coefficient: n-octanol/water</b>	No data available
<b>Auto-ignition temperature</b>	No data available
<b>Decomposition temperature</b>	No data available
<b>Viscosity (at 68°F/20°C)</b>	~1mPas
<b>Specific gravity (at 68°F/20°C)</b>	1.0 g/ml

## SECTION 10: STABILITY AND REACTIVITY

<b>Reactivity</b>	Material is not reactive
<b>Chemical Stability</b>	Under normal conditions this material is stable
<b>Hazardous Polymerization</b>	Hazardous polymerization will not occur
<b>Conditions to avoid</b>	Temperatures > 50°C; Freezing
<b>Incompatible materials to avoid</b>	Acids, alkalis, strong oxidizing agents, anionic surfactants
<b>Hazardous decomposition products</b>	None

## SECTION 11: TOXICOLOGICAL INFORMATION

<b>Acute oral toxicity</b>	LD <sub>50</sub> Rat (oral) > 5000 mg/kg
<b>Acute dermal toxicity</b>	LD <sub>50</sub> Rabbit (dermal) > 5000 mg/kg
<b>Inhalation toxicity</b>	N/A
<b>Acute eye irritation test</b>	Mild reversible eye irritant
<b>Acute dermal sensitivity</b>	Not a dermal sensitizer
<b>Likely routes of exposure</b>	Inhalation, skin contact and eye contact. Product is harmful if inhaled in large quantities
<b>Symptoms</b>	May cause mild, temporary eye and skin redness and/or irritation
<b>Delayed and immediate effects from short &amp; long term exposure</b>	May cause mild, temporary eye and skin redness and/or irritation.
<b>CMR toxicants</b>	Negative for CMR

## SECTION 12: ECOLOGICAL INFORMATION

<b>Acute toxicity</b>	Slightly harmful to the aquatic environment in large quantities
<b>Soil toxicity</b>	No data available
<b>Terrestrial vertebrate toxicity</b>	Non-toxic
<b>Terrestrial Invertebrate toxicity</b>	No data available

### Ecotoxicological effects:

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with requirements of the local government authority and the permitting authority has been notified in writing

prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority.

### SECTION 13: DISPOSAL CONSIDERATIONS

<b>Restrictions</b>	There are no product specific restrictions
<b>Waste Disposal Method</b>	Waste resulting from the use of this product may be disposed of on site. If this waste cannot be disposed of by use according to the label instructions, contact your local Environmental Control Agency for guidance.
<b>Container (plastic) disposal</b>	Rinse (or equivalent), then offer for recycling or reconditioning, puncture and dispose of in a sanitary landfill, incineration, or by burning (if allowed by the state and local authorities). If burned, stay out of smoke.
<b>Section 13 notes</b>	Inactivation of solutions containing MS WOUND CARE may be accomplished by addition of an anionic surfactant or detergent in quantity equivalent to that of MS WOUND CARE solution.

### SECTION 14: TRANSPORT INFORMATION

IATA Proper Shipping Name	Non-flammable liquid
IATA UN Number	Not specified
Hazard Class	Not regulated
NFPA/HMIS classification	Flammability 0, Reactivity 0, Health 1

### SECTION 15: REGULATORY INFORMATION

New Zealand	This product is an approved substance under the Hazardous Substances and New Organisms ACT (HSNO). The active components are listed on the New Zealand Inventory of Chemicals (NZIoC).

# YOUR SAFEGUARD AGAINST CORONAVIRUS

# WOUND CARE

## microSURE

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

Infectious Disease Management relies on both reducing the spread of bacteria, as well as creating an environment that makes bacteria difficult to grow. By creating a surface that makes it impossible for bacteria to grow and multiply on surfaces, the rate of infection will necessarily drop.

When a wound is coated with Microsure, millions of "invisible", nanoscopic crystalline structures begin forming and bonding (with the surface of wound), effectively forming a new surface. Resulting in a "mechanical kill", that will kill the cells of the bio threat trying to attach to the object.

## First-Aid Antiseptic to help fight CORONAVIRUS!

### DIRECTIONS FOR USE

- Clean the wound and dry thoroughly.
- Using a clean hand, apply thin coating of microSURE to the wound and surrounding area. Let dissipate for 60 seconds.
- Allow microSURE to dry before applying any antibiotics, bandages, or dressings.
- Apply antibiotic, if directed by your physician. Otherwise, allow wound to dry for several minutes.
- Dress the wound as directed by your physician.

*\*For maximum results, re-apply every 6-8 hours, or as directed by your physician.*

Kills 99.99% of Germs, bacteria, and viruses including **Coronavirus**. Continued protection against recontamination up to 8 hours\*!

- Dries on any surface forming a covalent bond
- Help prevent infection from minor cuts, scrapes, burns, or other wounds
- Promote healing of diabetic wounds
- Guard against infection
- Extended protection
- No-sting formula

Master Licensed Distributor:  
**SERVISMED**  
For more information contact:  
800-433-0949  
info@servismed.us

## Be Sure. Use MicroSURE.

**YOUR SAFEGUARD AGAINST CORONAVIRUS**

# Hand Sanitizer

**strategia**

Strategia Hand Sanitizer is an anomaly. Fully capable of tackling the toughest germs, yet always environmentally friendly, free of harsh fumes, gentle on skin and safe for use around people & pets. Never sacrifice safety for product performance again.

Strategia Hand Sanitizer kills germs on contact and leaves an invisible, "breathable" barrier that stays working & locked in place for up to 8 hours\*. Experience heightened protection **before & after** exposure.

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

## Protection through Prevention. Protect yourself from Coronavirus!

- Alcohol-Free, Free of harsh fumes
- Moisture-infused foam
- No cracking, drying or burning
- Does not degrade surfaces
- Parent, Nurse & Teacher Favorite

1

Kills 99.99% of Germs, bacteria, and viruses including **Coronavirus**. Continued protection against recontamination up to 8 hours\*!

2

Preferred by healthcare, education and public facilities where frequent skin cleansing is a must.

3

Amplifies consumer defense against the threat of surface transmissible infections

- Benzalkonium Chloride based
- Patented manufacturing process
- Enhanced Capabilities
- Always eco-friendly

## PROTECTS **LIKE NO OTHER**

\*Skin cells may be shed prior to 8 hours naturally or by abrasion. Reapply as needed.

**Instant killing action -  
lasting prevention**

## YOUR SAFEGUARD AGAINST CORONAVIRUS

# SURFACE PROTECTANT

The traditional mode of action to combat transmission of harmful microorganisms on surfaces is to attack the germs with varying degrees of poisonous chemicals. These poisons are composed of alcohols, bleaches and acids, and are designed to target and destroy a microbe's outer membrane, resulting in a "chemical kill". Antimicrobial biocides are toxic compounds that are all harmful to humans, plants and animals.

When a surface is coated with **Strategia Surface Protectant**, millions of "invisible", nanoscopic crystalline structures begin forming and bonding (with the surface), effectively forming a new surface. Resulting in a "mechanical kill", that will kill the cells of the bio threat trying to attach to the object.

*Can be sprayed on any cloth or mask to cover your nose and mouth from **CORONAVIRUS!***

- This newly mechanically modified surface is one that prevents adhesion, disrupts microbial communication and prohibits colonization, reproduction and proliferation.
- Microbes that are unfortunate enough to come in contact with Strategia Surface Protectant modified surface, exhaust themselves, wither and die.
- Unlike traditional disinfectants, Strategia Surface Protectant stays in place long after you apply it.

## PROTECTS LIKE NO OTHER

*\*Undisturbed coating will remain in place for up to six months.  
Reapply Strategia Surface Protectant sooner if surface has been abraded or exposed to heavy smoke or debris*

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

- 1 Kills 99.999% of bacteria on contact, including E.Coli, Enterococcus hirae, P. Aeruginosa, Staphylococcus aureus, and **Coronavirus**
- 2 Dries on any surface forming a covalent bond
- 3 Non-toxic, gentle on surfaces & safe for use around children & pets

- Will not degrade or discolor surfaces not harmed by water
- Multi-purpose cleaner that can replace many other cleaning chemicals combined
- Compatible with non-bleach disinfectants

**Instant killing action -  
lasting prevention**
